

OUR PURPOSE

Hello, Welcome to our Health & Wellness Center.

My purpose in sharing with you my clinical objective statement is to clearly define my approach to health, healing and to those I serve in this office. I desire a clear communication about both our responsibilities in this exciting relationship.

The following concepts are central to the way in which I practice Health Care. I am pleased to share these ideas with you so that we can be in alignment of purpose at the very onset of care.

- There is intelligence within each individual, which keeps that person alive, but also animates, coordinates, repairs, renews, empowers and heals.
- The nervous system is a main coordinating system and distribution center for this Innate Intelligence.
- Trauma, Toxins and Subconscious unresolved emotional/mental stressors and/or beliefs will block, inhibit or redirect the expression of this Intelligence.
- Proper coordination, repair, movement, inspiration, empowerment, healing and genetic potential cannot be expressed when this life power and intelligence is blocked, or redirected.
- The sole purpose of my treatments in this office is to release stuck patterns/perspectives, allowing a greater communication/function within the body.
- Everyone, regardless of age, symptoms and ailments will benefit from a nervous system which is more flexible, elastic and free of interference.
- Symptoms are not necessarily a sign of illness, but can occur to alert the individual of the need for change in their 6 essential choices: How we Eat, Breath, Drink, Rest, Exercise and Think are all related to our current health level.
- Specific location of symptoms does not correlate to the area needing to be cleared. Severity of symptoms does not correlate to the severity of the interference.
- An individual may have symptoms and not need treatment on a particular visit.
- An individual may have no symptoms at all and may require extensive treatment on a particular visit.

- I do not name or treat symptoms, conditions or ailments. I do not imply that any particular treatment or series of treatments will have a direct effect on any symptom or condition a person may be presenting.
- I do not discourage seeking medical attention for naming or treating symptoms or ailments. I actually encourage any individual having concerns about symptoms or ailments to consult with his or her medical physician.
- The innate intelligence, through the functioning of the nervous system is the true agent of healing, empowerment, coordination, inspiration, movement and joy. Healing is an inside job, coordinated by the same power, which develops and renews our body.
- By their very intent, various forms of treatments may interfere with the functioning of the nervous system and energy systems of life and are often incompatible with maximizing the benefits of holistic care. These treatments may include drugs such as pain reducing drugs, muscle relaxants, anti-inflammatory compounds and mood altering medication.
- Medication levels for a non-flexible, body-mind stuck in sickness is not necessarily the same for a body becoming well.
- I will not venture into the practice of medicine by advising about the need for reduction of such medications. I suggest you speak with your medical physician to determine the objective and goal to be obtained by receiving the medical treatment. Determine if this is consistent with your desire for wellness at this point in time. The physician who prescribed your medications may guide you in changing medications of treatments you are presently taking to accommodate for your changing body-mind-spirit.
- Consistent with these concepts, I choose to help each individual member of my practice to a greater level of wellness, elasticity, personal growth, empowerment and healing by locating and removing interference.

Sincerely,

Dr. Roland F. Phillips, Jr

I, _____ have read this statement of purpose and understand its contents. I understand that the adjustments offered in this office are not a replacement for any form of diagnosis or treatment provided by other types of practitioners. I understand that I am not being treated for any condition or symptom. My clinic offers chiropractic as a form of wellness care, to promote the natural mechanisms for self-healing and empowerment.
